

WHO DECIDES MAUI'S FUTURE?

WHICH MAP HAS THE BETTER PLAN FOR CENTRAL MAUI?

MAP 1: Recommended by citizens and County Planners.

- **Respects** need to create a boundary between Kahului and Waikapu, protect cultural resources and create large parks.
- **Respects** work of two citizen review groups and Maui Planning Dept, based on extensive public input.
- **Respects** ideas from over 50 public meetings about protecting natural features and burials and creating open space in central Maui.
- **Respects** our heritage by proposing preservation of a number of remaining natural sand dunes on site, where some burials have already been found.

MAP 2: Recommended by A&B and Consultants.

- A&B Waiale Plan **ignores** need for large natural buffer between Waikapu & Kahului. Map shows scattered preserve areas for burials and fragmented park lands.
- **Ignores** work of citizen review groups like GPAC and Maui Planning Commission and proposes as much high density as possible.
- **Ignores** public's concerns about disturbing more burials.
- **Ignores** protection of all except one sand dune burial area, but shows roads, high density housing and commercial development on remaining dunes.

Which Map will the County Council adopt?
IT'S UP TO YOU!

RESPECT CITIZEN INPUT
RESPECT OUR NATURAL AND CULTURAL RESOURCES
RESPECT OUR SMALL TOWNS
